  - (b) Seeding within the draw will be completed as per Squash BC's Policy and Procedures, Section 10.3.3 (iv) namely:

*Once the organizer has established which people will be in each draw, the seeding will be completed as follows:*

    - 1) *The organizer can choose how many players he wishes to publish a seeding for, but it will be no less than 25% of the draw.*
    - 2) *The top 25% of players will be placed in the draw such as they will not play each other until as late as possible in the tournament. In other words, they will be seeded in the traditional spots of a seeded bracket.*
    - 3) *Byes, when necessary, will be given to the top seeds*
    - 4) *The second 25% of players will be placed at random, but only in the traditional seeding spots as per a conventional bracket. (i.e. In a 16 person draw, the 5th seeded player, will be placed at random, in any of the 5-8*

*traditional bracket locations)*

*5) The remaining 50% of the players will be placed at random in the remaining spots in the draw.*
